Professional Experience

Department of Science and Technology – Planning and Evaluation Service

Taguig City

Backend Developer Intern

January – April 2026

- Developed and maintained REST APIs to support backend services, improving data exchange and system interoperability across microservices.
- Implemented Apache Kafka for asynchronous message queueing and event-driven data synchronization between core operational services.
- Collaborated using Agile practices to ensure technical backend solutions aligned directly with evolving organizational objectives.

Heraldo Filipino – The Official Student Publication of DLSU-D

Dasmariñas, Cavite

Managing Director (August 2025–June 2026) | Web Manager (August 2023–July 2025)

- Managed end-to-end procurement and transactional workflows for the organization utilizing the university's centralized Odoo ERP ecosystem.
- Monitored and audited organization-level inputs to ensure high data accuracy, minimal transactional bottlenecks, and compliance with university-wide system standards.
- Leveraged system data to track organizational spending and optimize resource allocation for student-led projects.
- Boosted the reach and engagements of the publication's social media pages by 23.72% through interpretation of a social media analytics report.

Education

De La Salle University – Dasmariñas

Dasmariñas, Cavite

BS Information Technology

August 2026

Awards: Summa Cum Laude, DOST-SEI Merit Scholar, Provincial Champion – Philippine Statistics Quiz

Technical Skills

Language & Libraries: Python (Pandas, Matplotlib, NumPy, Seaborn, SciPy), SQL, JavaScript, C#, C++

Data Analytics & ERP: Power BI, Tableau, Google Looker, MS Excel | SAP S/4HANA, Odoo

Tools: Jupyter Notebook, Google CoLab

Projects & Academic Coursework

Company Attrition Dashboard

December 2025

- Designed a data dashboard using Tableau presenting a specific company's attrition rate.
- Wrote custom calculated fields to enhance the data presentation of the required attrition data.

US Car Sales Dashboard

October 2025

- Conceptualized and developed a dashboard using MS Excel's pivot tables and charts outlining the overall car sales of various car brands in the US.
- Created an interactive custom layout for the various elements of the dashboard ensuring that they flow smoothly with each other.

SAP S/4HANA Laboratory Activities

January–May 2025

- Navigated core Sales & Distribution (SD) and Materials Management (MM) modules to execute order-to-cash workflows and inventory tracking exercises.
- Gained foundational exposure to ERP administration, including user account provisioning and Accounts Receivable/Payable transaction flows.

Certifications & Certificates

- IT Specialist – Databases (Certiport)
- PCAP: Programming Essentials in Python (OpenEDG)
- Intermediate Python | Understanding Data Engineering | Data Manipulation with pandas (DataCamp)
